

Text to Speech on Websites

1. Open Google Chrome web browser
2. Go to upper right corner of tool bar, click the three parallel lines icon
3. Select Tools – Extensions

4. Click “Browse the Gallery”
5. Search for “select and speak”
6. Click Add to Chrome button for Select and Speak extension
7. You will now have a speaker icon in the upper right hand corner:
8. Now one can highlight text on a website, click the speaker, and listen to the text

This extension will clear off the computer upon logging off.
